Even though I was born deaf, God has given me a love for music. I use what is called 'Sign Art' to convey the meaning of the songs. While you hear the music with your ears, I add visual to it so you can hear it with your heart. My desire is to bring a "fresh touch" to your worship experience. I want to reach out to hurting Christians and let them know there is still hope in the Lord."

Mark Mitchum

October 23, 2010

This workshop will focus on interpreting music into American Sign Language. Topics will be covered such as rhythm, expressions, and interpreting common phrases found in songs and choruses. Demonstrations will be used to show the difference of signing music in English and in American Sign Language.
